

AN AUTOMOBILE PARTY HAD VERY NARROW ESCAPE

Automobile Skidded and Was Dumped Almost Upside Down into the Ditch at Mountain View--The Depression in the Ditch Saved the Party From Serious Injury.

NOBODY INJURED

An Old Lady, Over Eighty Years Old, Was One of the Party, and There Escape From Serious Injury is Nothing Short of Miraculous.

An automobile party, containing three men and an elderly lady had a very narrow escape from death or bad injury, at a spot half a mile east of the Thirty and about a mile west of Beamsville, on Saturday afternoon about 12.45. The spot is known as Mountain View and it is near the sidewalk running down by the Thirty brick school house.

At this point they are stoning the road and there is a winnow of broken stone in the centre of the road for a considerable distance. A small creek crosses the road at this point and there is a cement culvert. The car skidded when the driver turned to the side of the road to go off the broken stone and went right over into the deep depression made by the water at the north end of the culvert.

It just happened that the 12.20 car from Grimsby was passing at the moment that the accident occurred and the train crew stopped their car and everybody rushed to the rescue.

The occupants of the car had their heads out between the automobile and the ground, but fortunately the backs of the seats prevented them from being crushed and they soon extricated themselves from their precarious position.

It was a fine Cadillac car, very heavy, and it had not been for the depression under it to allow the occupants room, they would have been crushed to death.

Injured. The lady was very old being over eighty and her escape may be considered as simply miraculous.

Nothing could be done to raise the automobile and it was left there and the occupants returned to Beamsville on the car. The same evening the garage people raised the car, placed it back on the road and removed it.

Many automobile drivers do not take sufficient care when approaching a spot where the road is being repaved and as they have to turn suddenly from the centre of the road to the side of the road, the cars often skid as the road is generally sloping on the side and there is very great danger of going into the ditch if a car is run at all fast.

Drivers should slow up and go cautiously along the side of the road in spots of this kind.

If a car is going at a slow rate, it cannot get into much trouble, but a car going fast runs the risk of going into the ditch.

ENTRANCE CANDIDATES SUCCESSFUL

Harry Appleton, Gerald Baker, Earl Blanchard, Maud Ballard, F. M. Connelly, James Crouch, Leonard Christie, Vera Farrell, Jeanette Flett, Marjorie Dorey, Maggie Davis, Joy Hagar, Marion Hartwell, Jack Hill, Esther and Ruby Johnson, Bert Kitchen, Helen Kirk, Stewart Lindsay, Flossie Marlowe, Mildred Moore, Florence Muir, Earl Pearson, Grace Pyett, Frank Pinkney, Bruce Stewart, Clara Smith, Margaret Scouten, Helen Smith, Mildred Tucker, Dorothy VanLoven, Alma Walker, Harold Walker, Kenneth Walker, Gertrude Wismer, John Yorkston, Peter Marlowe.

Traffic Over Grimsby Bridge

Lincoln County Road Superintendent W. B. Russ had a man stationed at the Village Inn, for four days last week and this week keeping track of the traffic which passes over the Grimsby Bridge—a good stunt.

There passed over the bridge:

On Saturday	188 autos and 315 rigs.
On Sunday	402 " 145 "
On Monday	251 " 404 "
On Tuesday	232 " 438 "

THE H. G. & B. HAS INVENTED A NEW PLAN

A Lady Makes Complaint to the Independent of the Usage She and a Number of Other Passengers Received on the H. G. & B. on July 9th.

HAD TO LEAVE CAR

Were informed by the Conductor that Power Was Off and They Would Have to Get Out and Wait-- Freight Car Buzzed Past Them, Greatly Adding to Their Surprise.

A very indignant lady called at the Independent office Thursday, July 10, and complained of the usage that she and a number of other passengers received at the hands of the H. G. & B. Electric Railway Company on July 9.

On Wednesday, July 9, about 2:30 in the afternoon, the power went off. This was caused by the breaking of an insulator on a pole near Vineland, and in this locality the power was off from about 2:30 to 4:15.

At the west end of the line some of the cars were running with power supplied, we suppose, from Hamilton.

The complaint the lady made was that she left Hamilton on the 2.10 car and arrived at Winona about 3 o'clock. At the time there were about six passengers on the car.

The lady states that after being at Winona a short time, the conductor came into the car and informed the passengers that they would have to get out and wait a little while, as the power was off.

The people immediately got out of the car and stood on the platform and the motorman and conductor took the car and started back towards Hamilton. The six passengers sengers standing on the platform with their luggage by their sides, wondered very greatly how it was that the car could run away towards Hamilton when the power was off.

To the utter amazement of these

ENGAGE NEW SCHOOL TEACHERS

At the special meeting of the Board of Education held on Monday evening, July 14, the resignation of Miss Elizabeth Coulson, fourth assistant in the Public School, was received and accepted by the Board with regret.

Twenty applications were read from teachers applying for the position of second assistant in the High School and the Board instructed the secretary to wire the acceptance of the application of Miss Campbell of Toronto. (The secretary received a wire the day following from Miss Campbell, accepting the position.)

The Board instructed the secretary to write to Miss Ross of Grimsby, offering her the position of fourth assistant in the Public School.

The meeting then adjourned.

FRESH MADE CITRATE OF MAGNESIA 40c A POUND

Or in boxes, 15c each, 2 for 25c. People often remark, why cannot we get magnesia citrate anywhere else as good as we get from you? The reason is we make it ourselves and it is fresh and pure. Parke & Parke druggists, Hamilton.

Big Boston Firm Will Move to Galt, Ont.

Tinkering With the Tariff is the Cause

Boston, July 13th.—Governor Eugene Foss, came out today with a statement condemning the Democratic Congress for its tariff legislation, and announcing in the future he would do the greater part of his machinery manufacturing in Canada. This statement followed the announcement that the B. F. Sturtevant Company, the concern which the Governor controls, had purchased the factory of the Canadian Motors Company in Galt, Ont. Mr. Foss took the opportunity to repeat the denunciation of the Democratic party's politics, which he uttered in the form of a special message to the Legislature some weeks ago.

The Governor's statement in part is as follows:—"For more than twelve years one of the principal Massachusetts corporations which I represent has had under consideration a plan of transferring to Canada a large portion of its work. I have personally opposed this plan and endeavored to maintain this industrial enterprise in its home Massachusetts, but am now convinced that it is no longer possible to defer action on this matter. Accordingly I make the announcement, although I do so with sincere regret, that the B. F. Sturtevant Company has just completed the purchase of a manufacturing plant in Galt, Ontario, and that a large part of the work which has hitherto been done at Hyde Park will now be transferred to Canada, the refuge."

SECOND MEETING OF PUBLIC SCHOOL HISTORICAL SOCIETY PROMOTIONS, 1913

The second meeting of the Grimsby Public School Historical Society was held on the 30th of June last at Mr. A. A. Rutherford's. There were present representatives of the following families, which have lived in Grimsby for more than one hundred years, viz: Nelles, Woolverton, Alexander, Pettit, Nixon, Smith, Walker, Groat, Muir and others.

The early part of the evening was spent in viewing the house and other interesting relics. The house is the oldest in Grimsby, having been built over 100 years ago by Col. Robert Nelles, grandfather to Mrs. A. Rutherford. The Colonel came to Canada about the time of the American Revolution, preferring to leave his home and property in New York state, to fighting against King George and the British flag. In consideration of this loyalty, Col. Robert Nelles and his four brothers were each granted large tracts of land being well deserving of the title "United Empire Loyalists." The Colonel first settled east of the Village, about the year 1780, on the farm now owned by Mr. J. A. Book, where he built a log house. In this house he once entertained Governor Simcoe. Col. Nelles was first Master Mason of the lodge at Grimsby, and twice elected Member of Parliament, in 1801 and in 1805.

Many interesting old documents, deeds, etc., were placed on the table for inspection, together with the military coat and sword used by the Colonel in the King's service. Even the huge old fire place, with crane and andirons, was a centre of attraction, being probably the largest old Colonial fireplace still remaining in Grimsby.

The program was brief but very interesting and was as follows: Song and chorus "The Maple Leaf" Chairman's address, W. J. Drope, B.A. Song, Mrs. Dr. Clarke. Song, Mrs. Harry Baker. Topic, "The Col. Robert Nelles Family," written by Mrs. Adam Rutherford. Granddaughter of the Colonel.

Song, Mrs. Dr. Alexander. Song and chorus, "O Canada." The paper written by Mrs. Rutherford was of very great interest. The paper traces the history of the Nelles family back to the year 1767, and contains many important references to the early history of Grimsby. It will be carefully preserved until the Society receives its Government grant for printing, when, with other papers, it will be published in a pamphlet and a copy given to each member of the Society.

Membership is only 50c per annum, and is payable to the secretary, Mr. Linus Woolverton.

GRIMSBY BOY SCOUT ORDERS
Owing to there being no scout master at present available, I am compelled to dismiss the Grimsby Troop until a scout master can be found, who is acceptable to the local scout council.

The present scout camp at Grimsby Beach is a private affair.

L. Woolverton, District Capt.

AN EPIDEMIC OF THIEVES OR A BUSY INDIVIDUAL THIEF

NORTH GREY ELECTS A CONSERVATIVE

Mr. Cameron, Conservative Redeems the Riding by the Handsome Majority of 278--Both Parties Put Up a Most Strenuous and Heated Campaign.

RIDING FOOLED THEM

Although Being a Notorious Local Option Riding it Has Emphatically Declared Against the "Abolish the Bar" Policy of the Liberal Leader.

A great many people thought that N. W. Rowell's new policy of "Abolish the Bar" would win the day for the Liberal party in the Provincial by-election which was held in North Grey on Monday, July 14, on account of the fact that North Grey is nearly all under local option.

Owen Sound has been under local option for years. Meaford is at present under local option and several municipalities throughout the county, have also during the past declared in favor of local option.

This fact, added to the fact that the county has been Liberal for ten years and that it was represented by the Hon. A. G. McKay, late leader of the Liberal opposition in the Ontario Legislature, gave the Liberals the idea that they would surely hold the constituency.

Added to the facts already mentioned, the Liberals banked on the Proudfoot charges against Sir Jas. P. Whitney and the Hon. W. J. Hanna. They maintained that these charges ventilated on the platform along with a set of questions prepared in the Globe office, would catch the honest electors of North Grey and help to carry the party to victory.

What happened nobody can tell, but it happened all right and on Monday night the Conservatives were surprised and so were the Liberals when the word went around that Mr. Cameron, Conservative candidate was elected by a majority of two hundred and seventy-nine.

The remarkable thing about the Conservative victory was the fact that in Owen Sound the great local option town, the majority for the

(Continued on page 8)

MR. V. W. JACKSON HAS GONE WEST

Mr. V. W. Jackson, B. A. of Parkdale Collegiate, Toronto, has accepted the position as Professor of Botany in the new Manitoba College at Winnipeg.

Before coming to the Parkdale Collegiate, Mr. Jackson taught for two years in the Brampton High School after having been instructor in nature study and agriculture in New Zealand for three years previous. He has also taught two years in the Agricultural College at Guelph so that he is well prepared for the new work which he is under taking.

Mr. Jackson left last night for Winnipeg where he will take charge of a summer school and also equip the new Biological Building. The college will be opened in November. Mr. Jackson is a son of Mr. D. Jackson, Grimsby.

The Store of A. F. Hawke Was Entered at the Rear--Mr. J. T. Lane's Jewelry Store Was Also Entered and Some Articles Are Missing.

CHICKENS STOLEN

Mr. Albert Terryberry Has Had Fourteen Pure-bred Plymouth Rock Chickens Stolen, the Thief Killing Them on the Spot, Leaving the Heads as Evidence of His Visit.

Grimsby is troubled at the present time, either with an epidemic of sneak thieves or else a very busy individual thief.

The other night some person broke into the rear of Hawke's store. The proprietor cannot state what has been removed and took no action in the matter.

On Sunday morning about 2 o'clock a thief broke the plate glass in the side door and made an entrance into the jewel store of J. T. Lane. He at first tried to pry the glass out with a screw driver or some other implement, but finally broke the glass and got in through the upper half of the door. Mr. Lane cannot tell what was taken, although he missed several pieces of jewelry.

On Saturday night, a thief or thieves visited the chicken house of Mr. Albert Terryberry and stole a number of pure bred Burred Plymouth Rock. So crude was he in his work that he wrung the necks of the chickens and left the heads lying in the chicken house.

Mr. Terryberry, on counting his chickens, found that fourteen were missing.

He traced blood stains along the cement sidewalk, up Gibson Avenue and down Main St. to the Presbyterian church lane, where apparently the thieves had crossed through the cemetery towards Murray St.

There has been a cessation of thieving around Grimsby for some little time, but owners of poultry should begin to take precautions at once, as the spring chickens are getting large enough to use and the thieves will be taking them.

Several precautions should be taken, although a safe and sure rule is keep a shot gun and a bull dog handy. A good dog in the yard will give the warning and the shot gun will do the rest.

It is not against the law to shoot a man if you find him in your building at night, so do not be afraid to pull the trigger.

Mr. J. T. Lane, as soon as he discovered the break in his door, secured part of the broken glass with the finger marks of the thief upon it and he had them photographed and sent into the police in the city.

Residents near Mr. Lane's jewelry store, heard the crash of the break.

(Continued on page 4)

BRANTFORD BOYS AT THE BEACH

Mr. J. F. Schultz, formerly of Grimsby, but now of Brantford, is camping at Grimsby Beach this week accompanied by a party of boys from Brantford.

The young men in the party are as follows: Cecil Perry, Reg. Cook, Albert Mellie, Frank Sanderson, Jamie Hurley, Dudley Hurley, Russell Sweet, Norman Schultz and Harold Schultz.

883 Automobiles Passed Over the Queenston and Grimsby Stone Road In Four Days Last Week

The Queenston and Grimsby Road Committee of the County Council has been gathering data to present to the Ontario Government to induce the latter to take over the Q. & G. Road and maintain it, in view of the fact that the road is used more by people living outside the county than those in it.

A record was kept of the number of autos and rigs passing over the canal bridge at Queenston street, St. Catharines, for four days, and here is the result:

Friday, July 12th	295 rigs and 175 autos.
Saturday, 13th	412 rigs and 222 autos.
Sunday, 14th	170 rigs and 388 autos.
Monday, 15th	313 rigs and 273 autos.

BORN

Macklem--At 9 Castle Frank Road, Toronto, on Tuesday, July 15, to the wife of Francis Pagot Macklem, a daughter.

COLD WEATHER FOOT COMFORT

You are wearing extra clothing for comfort and protection these days, but do you recognize that the FEET are the gateway through which many colds enter.

If you are wise you will wear extra foot covering, and naturally you'll expect THIS store to be prepared for you. In this you'll never be disappointed.

All our heavy lines, Rubbers, Overshoes, etc., are awaiting your inspection.

There is nothing you can need. There is nothing that cold or wet or slush or snow can demand but it is here, and here at its LOWEST cost to you.

FARRELL'S SHOE STORE, Grimsby, Ontario

Facts and Fancies

(Continued from page 2)

Here we have two men illustrating two different phases of the question. Both of them taking liquor to excess in their youth, after marriage one becoming a moderate drinker, the other a heavy drinker; in later life the heavy drinker becoming a teetotaler and living for twenty-five years without tasting liquor, the other continuing and still continuing to the present time a moderate drinker.

I say, therefore, that when a man makes a hard and fast statement about drink habit, he has neither fact, history nor experience to back him up and men often talk who know absolutely nothing along these lines. But there is a general tendency, and this tendency I have pointed out, and the tendency is that older men are inclined to be come teetotalers or moderate drinkers, while younger men are inclined to excessive drinking and rarely become teetotalers in early life once they have started to drink heavily.

I have met men who can make wonderful statements to me about the drink habit, but when I ask them to prove their statements or bring the actual individuals before me, they were stuck.

"Produce your man—give me his name and address." That is the way I ask for proof and it pretty nearly always puts the speaker up a tree.

In studying this drink question, always go after the individual. I find out what he was in early life, in middle life and in old age. I do not deal in generalities; I take the individual.

If I can produce a heavy drinker who reformed in later life, I have my man. No one can gainsay or contradict my evidence.

If I can produce a man or ten men, or fifty men who were moderate drinkers and are still moderate drinkers, I have my man, I have my absolute evidence. Newspaper talk, generalities and theories cut no figure. The cold facts over-ride everything else.

In studying along these lines, I have come to the conclusion that one-half the lies that are written about the liquor question are not true.

A special despatch from Boston, Mass., to the Toronto Globe on Monday states that the B. F. Sturtevant Company, in which Governor Eugene Foss is the controlling power, has decided to move its immense manufacturing plant from Hyde Park, Mass., to Galt, Ont.

Governor Foss gives out the statement that this change has been decided upon on account of the Democratic tinkering with the tariff.

The Governor further adds that this movement has been under consideration for twelve years and he always has been opposed to it, but that he has finally given in on account of the tinkering with the tariff and has purchased the property of the Canadian Motors Company in Galt, Ontario and will, in the near future, remove the Company's plant to Canada.

The despatch further says that there is a general feeling all over the United States that the unstable tariff makes it necessary for many of the manufacturers to establish plants in Canada in order that they may make their goods and find a market under conditions suitable to them.

Governor Foss' action on backs up the stand that I have taken for many years on the tariff question, and that stand is that a government should always seek to keep a stable tariff—no matter whether it is low, high or medium, it should be uniform from year to year, only with such changes as circumstances warrant and these changes only to be made when the framers of the tariff are thoroughly posted on the conditions surrounding the manufacture of the goods affected, and all circumstance connected with the making and shipping and selling of the same.

If the profit on a line of goods is twenty-five per cent and a tariff change of ten or fifteen per cent made one way or the other, it could easily be seen that such a change may be ruinous to the profitable production of goods.

If a manufacturer is making goods under high tariff, he has certain conditions to meet and he must meet them, but to switch him to a low tariff might mean to him the destruction of his plant and the ruination of his business.—The fixing of the tariff in the United States will send a lot of industries to Canada.

The result in North Grey when the Conservative candidate was elected by a majority of two hundred and seventy-nine over the Liberal, "Abolish the Bar" candidate in the by-election on Monday, is worthy of more than a passing comment, on account of the fact that it was openly acknowledged by both parties to be a test election.

It was a true test on the question of "Abolish the Bar" on account of the fact that it was about the first county where Mr. Rowell had a chance to test his policy where a Liberal had held the seat previously and it was a test question further, on account of the fact that North Grey is largely under local option, so that as far as testing the people of North Grey on the "Abolish the Bar" policy, Rowell had all the best of it.

Owen Sound has been under local option for years. Meaford is under local option and many other municipalities are under local option. Apparently "Abolish the Bar" should win in a walk.

But there were other issues before the people and apparently a great many electors voted on issues which they considered of more importance than "Abolish the Bar."

For instance, the general policy of the Whitney Government, as carried out during six or seven years, was before the people, in comparison with the promises of the leader of the opposition, Mr. Rowell, and no doubt, many people voted supporting what they considered a good government actually in power, in preference to an untried leader and untried policy.

In the next place, the question of the charges against the premier and the provincial secretary as put forward by Mr. Proudfoot, were also featured in the contest and no doubt many people supported the Conservative candidate because they considered that Mr. Proudfoot and his party had tried to make a mountain out of a mole hill and had utterly failed in the attempt.

Politicians who know politics and study politics will, therefore, fully realize that the temperance question was not nearly as big an issue in North Grey as might appear at first glance.

As a proof of this I have only to refer to the effect in Owen Sound. This town has gone local option in at least three different elections, but on Monday it gave Mr. Cameron, the Conservative candidate, a majority of two hundred and ninety.

This does not mean that Owen Sound has gone back on local option but it means that there are more electors in Owen Sound who are willing to support the Whitney government than there are who are willing to support the Rowell policy.

There is another reason for the town's vote against the "Abolish the Bar" policy, while actually supporting local option, and that is this. The vote at a Provincial election such as Monday's, and the vote on a municipal election where local option is carried are quite different. Many people can vote at a municipal election who cannot vote at a provincial election and very many people can vote at a provincial election who cannot vote at a municipal election. The consequence is that a town which might declare for one policy at a municipal election and at a provincial election immediately afterwards, the same town might declare for an entirely different policy.

While Mr. Rowell's policy of "Abolish the Bar" may not have cut a very big figure in the elections in North Grey on Monday, the result will have a discouraging effect on the advocates of this latest temperance movement.

Mr. Rowell's remarks in a statement in the Toronto Globe on Tuesday, July 15, gives his opinion of the result and as this is a very important statement, I copy it herewith in full:

MR. ROWELL'S STATEMENT

"My information convinces me that the result in North Grey was due to the open combination between the Whitney Government and the liquor interests, with unlimited financial resources at their disposal. For the sake of Mr. McQuaker, who was an exceptionally fine type of candidate, and the workers who stood so valiantly by him, I regret the result. The loss of the seat, however, will have its compensations. It helps to awaken the people of the Province to the undoubted fact.

Smart patterns in Silk Derbys, regular 25c, for.....	19c

MEN'S SHIRTS at 79c

Neglige Shirts with extra collar, still a few left, good pattern, regular \$1.25, for..... 79c

We were quite sure that there would be no lack of buyers at the first Saturday Night Sale---the crowd came---it saw and was conquered---it needed no microscope to discover the remarkable values. The merchandise was here, and exactly as we advertised it---the prices, well we only know that action began at the stroke of the 7 o'clock bell and continued unabated until closing time.

One can bring a crowd with an offering of big values, but one won't do business unless the prices match the advertisement. WE DID BUSINESS.

We have prepared for the second AFTER SUPPER SALE with another great budget of bargains. We will see a large percentage of the people who came to the first---and a host of friends---because there has been so much talk of the plums that were picked at the first sale. So you had better come too---another crop is ready for those who like to buy goods at retail, at less than most stores pay wholesale.

After Supper Sale

DOCTORS DID NOT HELP HER

But Lydia E. Pinkham's Vegetable Compound Restored Mrs. Bradley's Health—Her Own Statement.

Winnipeg, Canada.—"Eleven years ago I went to the Victoria Hospital, Montreal, suffering with a growth. The doctors said it was a tumor and could not be removed as it would cause instant death. They found that my organs were affected, and said I could not live more than six months in the condition I was in. "After I came home I saw your advertisement in the paper, and commenced taking Lydia E. Pinkham's Vegetable Compound. I took it constantly for two years, and still take it at times, and both my husband and myself claim that it was the means of saving my life. I highly recommend it to suffering women."—Mrs. ORILLA BRADLEY, 284 Johnson Ave., Winnipeg, Manitoba, Can.

Why will women take chances or drag out a sickly, half-hearted existence, missing three-fourths of the joy of living, when they can find health in Lydia E. Pinkham's Vegetable Compound? For thirty years it has been the standard remedy for female ailments, and has restored the health of thousands of women who have been troubled with such ailments as displacements, inflammation, ulceration, tumors, irregularities, etc.

If you want special advice write to Lydia E. Pinkham Medicine Co. (Confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman, and held in strict confidence.

MOUNTAIN VIEW

Mrs. Blackstone, who has been visiting at Mr. H. H. Brown's, returned to her home at Toronto, on Saturday last.

Mr. and Mrs. Halst. Grimsby, called on Mr. and Mrs. P. Merritt's on Sunday last.

The farmers are rushing their hay, the weather being very favorable.

Fall wheat will soon be ready to cut.

Tim is taking in the Beach quite often of late.

Mr. R. Walker was in Hamilton on Tuesday.

Mr. R. Walker is getting a phone put into his house.

Miss Anna Webb visited her parents on Friday.

Mr. R. Walker was in Hamilton on Friday.

ST. ANNS

Mr. and Mrs. Fred Carr and Mr. and Mrs. Court. High of Vineland, visited at Mr. John Taylor's last week.

Mrs. O. R. Jones and daughter, Miss Marion, visited friends in Smith's on Friday.

The Canadian Order of Foresters will run an excursion to Toronto Island on Saturday of this week.

Rev. Mr. Fritz has been appointed assistant pastor of the Methodist church.

The Methodist church choir will hold a garden party on Wednesday evening in the grounds of James Smith.

Mrs. Selby Cormack and son Stuart spent last week at the home of their cousin, Adolphus Hunter, of Grimsby.

Rev. Mr. Lamb occupied the pulpit in the Church of the Redeemer on Sunday evening.

THE DESTRUCTIVE COLORADO BEETLE

(By B. C. T.)

Farmers will now have to keep a watchful eye on their potato crops for the presence of this destructive insect, of which the writer is put in mind by finding a full grown one in his own potato patch a few days ago.

Unlike some of the enemies of the potato, this one is easily visible and though one would rather it were not visible, its visibility renders it all the more easy of capture. It is not to be supposed that this insect will ever be entirely exterminated, at least not during the present generation, but it behooves all to spare no effort to do their share of bringing about such a desirable state of things, as its extermination.

It covers a vast area for it has of late years spread all over the United States as well as Canada. Although such a proposition sounds impossible of accomplishment, if pains were taken by both in this country and in the States to destroy the beetle wherever and whenever found, this would in the course of years, lead to the decline of its numbers and if a little extra time and expense were allotted to this matter, great would be the reward reaped hereafter, when a walk through the potatoes might fail to reveal a single one.

Both the adult insect and the grub are destructive. The adult often devours young plants just coming through the soil, eating them. It may be to the ground. Both beetles and grubs defoliate older plants. Where potatoes are not altogether destroyed, tubers may be produced, but they will be small and poor in quality, and care should be taken to prevent serious damage being done to the foliage. In the States the beetle has a great many natural enemies which do their share in its destruction.

Birds, especially the rose breasted grosbeak, feed upon both the beetle and the grubs. Ducks and chickens also make food of them, but more particularly the grubs, and loads will greedily drown them.

In the States, the remedy most generally applied is jarring the insects into a pail or vessel containing coal oil. There is a little risk of injuring the plant when doing this and of the two remedies, the writer advocates the application of Paris green and also as being the rather quicker method of the two. An old can with all but some half a dozen of the holes stopped with stems of dry grass, is the best sprayer. The mixture should be made up in the proportions of a dessertspoonful of Paris green to about two gallons of water, in which it should be well stirred. Another remedy, perhaps equally good, is spraying with arsenate of lead.

There have been one or two visitations of the beetle to Great Britain, but it has always been successfully coped with, prompt preventive measures removing the danger. It is illegal to sell or expose a live specimen of the beetle in England today. A single female Colorado beetle is said to be capable of producing 1,000 eggs.

PRESERVING EGGS IN LIME WATER

A method that will preserve the original quality of the eggs for an indefinite period has not yet been discovered. By cold storage, eggs are put up in large quantities during the spring season when prices are low, but where it is desired to preserve a small quantity for home use the cold storage method is not practicable. Eggs intended for storage should be fresh and clean. March or April eggs will keep better than May or June eggs. The sooner they are put into storage after being laid the better they will keep. Dissolve a pound of lime in five gallons of water. The water should be boiled previously to sterilize it, and then cooled. Stir thoroughly, and let settle. Then pour off the clear liquid into a wooden or earthen jar or tub. Fill with eggs to within an inch of the top of the liquid. This will allow for evaporation. The liquid should not be allowed to get lower than the top of the eggs. When the vessel is filled with eggs, cover it with coarse muslin or factory cotton, over which spread a paste of lime to exclude the air. Water-glass (sodium silicate) may be purchased at the drug stores. Use the liquid form and the commercial grade in

Na-Dru-Co Laxatives

are especially good for children because they are pleasant to take, gentle in action, do not irritate the bowels nor develop a need for continual or increased doses. 25c. a box, at your Druggist's.

National Drug and Chemical Co. of Canada, Limited. 177

the proportions of one part water-glass to eight parts water. Use earthen jars or wooden tubs or barrels that are perfectly clean, and store in a clean, cool place. The material used will cost about a cent for each dozen eggs stored.

GARDEN PARTY

The young ladies of the Grimsby Baptist church will hold a garden party at the residence of Rev. Dr. Thomas at Grimsby Beach on Thursday, July 31. Proceeds in aid of the Sunday school building fund.

At the Head

The man at the head of affairs whether at home or in business, is the one whose attention you wish to attract.

Our paper goes into the best class of homes and is read by the head of the family. That accounts for the results obtained by the use of Classified Want Ads.

SYNOPSIS OF DOMINION LAND REGULATIONS

Any person who is the sole head of a family, or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-agency for the district. Entry by proxy may be made at any agency, on certain conditions by father, mother, son, daughter, brother or sister of intending homesteader.
 Duties—Six months' residence up on and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.
 In certain districts a homesteader in good standing, may pre-empt a quarter section alongside his homestead. Price \$3 per acre.
 Duties—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including the time required to earn homestead patent) and cultivate fifty acres extra.
 A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchased homestead in certain districts. Price \$3 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect a house worth \$300.
 W. W. CORY,
 Deputy of the Minister of the Interior.

TO BENEFIT OTHER SUFFERERS
 You May Publish My Letter About "Fruit-a-lives"

Mr. Jones is proud to acknowledge the great debt of gratitude he owes "Fruit-a-lives". He is glad to have his letter published in order that other sufferers may be induced to try these wonderful tablets made of fruit juices.
 SARNIA, ONT., FEB. 5th, 1913
 "I have been a sufferer for the past 25 years with Constipation, Indigestion and Catarrh of the Stomach. I tried many remedies and many doctors, but derived no benefit whatever. Finally, I read an advertisement for "Fruit-a-lives". I decided to give "Fruit-a-lives" a trial and they did exactly what was claimed for them. I have now taken them for some time and find they are the only remedy that does me good. I have recommended "Fruit-a-lives" to a great many of my friends, and I cannot praise these fruit tablets too highly."
 PAUL J. JONES.
 50c a box, 6 for \$2.50, trial size, 25c. At dealers or sent postpaid on receipt of price by Fruit-a-lives Limited, Ottawa.

HONESTY VS PROFESSIONAL ETHICS

Here is a letter from a very intelligent medical man who commends some of our New Thought methods of curing disease. At the end of his letter this doctor says: "To ignore is to debase. Commercialism is honorable and respectable. I shall take pleasure in complimenting you with a commission of twenty-five per cent of the fee from any case that you send me."
 Is it necessary for me to say that I did not accept this offer? And this is what I wrote to him:
 Read your letter, I would like to help you out in the way you suggest, but I don't see how I can do it. It would be against the postal laws to begin with—if I should publish a letter, or write an editorial about your work when you had promised to pay me twenty-five per cent from customers secured I would have to print under the article the word, "Advertisement," in order to conform with the postal laws.
 While I am about it I think I may rub it in that you doctors all have a very "unethical" way of advertising! You pretend not to advertise, but you pull all kinds of wires to get notices into the papers about yourselves, that are nothing in the world but advertisements. You either graft off the publisher, or else pay the publisher for these by some such arrangement as you have outlined in this letter of February 8.
 I wish you would take this up with your medical association and see if you can't get the doctor's advertising put on an ethical basis instead of leaving it to be run sub rosa in this sort of fashion.
 Please note that this is not a personal knock at all—I am merely taking advantage of this opportunity to get the matter before your medical association.
 There is no reason on earth why doctors should not advertise, and they ought to do it. All good methods and all good things and all good principles should be advertised and the more advertising the better.
 All the biggest doctors do advertise, but they do it by Special Privilege and on the graft principle. Witness Doctors Carrel, Woods, Hutchison, etc. The doctors that the medical associations repudiate as "unethical" are doctors who take space honestly and pay for it. Then the medical union calls them "scabs," or words to that effect. The truth is that they are merely using publicity to advertise themselves in exactly the same way that Dr. Carrel uses it, but they are honest enough to take the space and mark it "Advertisement" and pay for it.
 All this time the rank and file of the doctors try to live up to the traditions and superstitions of the profession by not advertising. When they begin to realize that all good things must be advertised they try to do it in the unethical and underhanded way mentioned in yours of February 8.
 My dear doctor, don't do it, don't do it! Help the honest advertisers to smash the traditions and superstitions of the profession. Go before your association and insist on their becoming educated in the advertising profession, with a view to deserting their underhanded methods and doing things openly and above board as they should.
 I don't know of any profession that is in greater need of overhauling than the medical profession. And I say down with Special Privilege in all professions. Let business efficiency extend through the "medical trust." Turn on the searchlight and remove the advertisement verminiforms.
 Another one of the nasty little habits of the Special Privilege doctors is the habit of knocking patent medicine. Answer me this conundrum: When is a patent medicine not a patent medicine? You won't answer it correctly because, as a doctor, you haven't humor enough to see the point, so I will answer for you. The answer is this: A patent medicine is not a patent medicine when it is advertised in a regular medical journal.
 That is the attitude of the medical men. Every medical journal is full of advertisements of patent medicines used by doctors and not one of those patent medicines will advertise in the general magazines. And every doctor knocks to the limit every patent medicine that is advertised outside the regular medical journals.
 All patent medicines, no matter where they advertise, were originated by doctors in the beginning and nearly every patent medicine company makes some doctor rich. Then all the other doctors knock the rich doctor, in order to maintain their own Special Privilege! Tommy rot! Stuff and nonsense, piffle, plash. And likewise—
 Go to it, doctors, clean house and put your advertising on an HONEST basis.—The Nautilus, June, 1913.

\$10 FOR AN EGG
 On July 19, I intend to honor the birth of the first Tobey who was born on Sir Walter Raleigh's estate on that date in the year 1588, by having the first Centennial clothing sale in my history, and at the same time doing honor to the Centennial celebration that takes place here in Hamilton from Aug. 11 to 16. I am going to pay \$10 to any citizen of Hamilton or this district, or any reader of the Hamilton papers who can write "Tobey's Centennial Clothing Sale" the greatest number of times on an egg. The egg must be a hen's egg. You can select as big an egg as you like, but each time the words are written they must be eligible. The eggs must be sent to my store not later than Aug. 19, and your name and address must also be written on each egg.
 Tobey, 59 & 62 James St. N. Hamilton.

AN IDEAL VACATION TRIP VIA GREAT LAKES STEAMSHIPS
 At this season of the year when so many are planning their vacation trip the question "Where To Go?" naturally arises—What could be more delightful than a Great Lakes trip, where the air is pure, the sun shines and cool refreshing breezes blow?
 Few people realize what what ease and speed a trip from the east to Port William and Winnipeg, can be made via the Canadian Pacific Great Lakes Express steamships. You can leave Toronto 12.45 noon Tuesday or Saturday and arrive Winnipeg 9.40 p.m. Thursday or Monday. Fifty-seven hours from Toronto to Winnipeg: twelve hours faster than any other service. For those who wish to leave on different days of the week and have a little more time on the water, the trip can be made leaving Toronto 12.45 noon Mondays, Wednesdays and Thursdays, arriving in Winnipeg 11.40 a.m. Thursdays, Saturdays and Sundays.
 If you are contemplating a trip, don't let this slip your memory. Canadian Pacific Steamships make the fastest time, have the best of accommodation and the table is unexcelled. Full particulars and reservations on trains and ships, at every Canadian Pacific Ticket Office.

IRISH GUARDS BAND
 Most Popular of all the British Bands that have visited Canada.
 The band of the Irish Guards, who feature the music at the Canadian National Exhibition this year, need no introduction to Canadian music lovers. They were brought over to the Canadian National Exhibition in 1905 and so enthusiastically were they received that it was decided to tour them from the Atlantic to the Pacific. The tour was carried out and its success marked the Irish Guards as the most popular of the splendid British Military Bands that have visited Canada.
 Visitors to the Exhibition that year will still remember the selection from "Il Trovatore" and the coronet solo that came floating in from a distant part of the grounds. The same soloist, Sergeant Hunt, is still with the band. Then you'll remember "Baby Sweetheart." The whole country was whistling and humming it.
 BAPTIST CHURCH
 Sunday, July 20, 1913.
 11 a.m.—"Precious Blood."
 7 p.m.—An exchange with Rev. L. H. Currie.
 2.30 p.m.—Bible School.
 Wednesday, 8 p.m.—Praise and Prayer meeting.
 Thursday, July 31, a garden party and sale of work will be held on the lawn of Rev. B. D. Thomas, D. D., at Grimsby Beach. Proceeds in aid of the Sunday School building fund.

British Columbia appears to have a good crop but there is a possibility that a portion of it may be marketed in Australia this year. In regard to this, Provincial Fruit Inspector W. H. Lyne has recently said:
Causes Much Disease
Advice about Stomach Troubles and how to relieve them.
 Don't neglect indigestion, for it may lead to all sorts of ills and complications. An eminent physician once said that ninety-five per cent of all ills have their origin in a disordered stomach.
 Our experience with Rexall Dyspepsia Tablets leads us to believe them to be one of the most dependable remedies known for indigestion and chronic dyspepsia. Their ingredients are soothing to the inflamed membranes of the stomach. Rich in Pepsin and Bismuth, two of the greatest digestive aids known to medicine, the relief they afford is very prompt. Used persistently and regularly for a short time, they tend to relieve pains caused by stomach disorders.
 Rexall Dyspepsia Tablets help insure healthy appetite, aid digestion, and promote nutrition. As evidence of our faith in them, we ask you to try them at our risk. If they do not give entire satisfaction, we will return the money you paid us without question or formality. Three sizes, 25 cents, 50 cents, and \$1.00.
 You can buy Rexall Dyspepsia Tablets in this community only at our store:

Facts and Fancies

Continued from page 2

an alliance between the Whitney government and the liquor interests. When the people realize that this combination exists I do not believe that they will stand for it. This by-election is but an incident in the fight which will go on with unabated vigor for a progressive government and the abolition of the bar. We need the crusading spirit. It may require events like North Grey to awaken the people to the situation and develop this spirit."

I contend that Mr. Rowell is wrong when he says that there is "open combination between the Whitney Government and the liquor interests."

Surely Mr. Rowell is not so dense as to think that when he attacks a force that that force will not defend itself and attack back.

Now what are the forces in the case? The Whitney Government is in power. That is one force. The liquor interests are an established fact in the country. That is another force.

N. W. Rowell comes along and he first attacks the Whitney Government and soon after he attacks the liquor interests.

Having openly attacked these two existing forces, what does he expect? That the forces will lay down their arms and allow him to trample over them to victory?

As a matter of fact, he did expect and everybody else expected that the two forces would fight, might and main, to maintain their position and gain a still better position, if possible.

Now, it would be quite possible for the Whitney Government, working on its own merits, quite independent and separate from the liquor interests, to put up a mighty good fight in opposition to Mr. Rowell and when we add to this the fact that the liquor interests would put up just as good a fight as it could and do it separately and independently from the Whitney Government, we find that these two forces acting in and against each other are too strong for Mr. Rowell in North Grey and he is beaten.

If Mr. Rowell had stated that the Whitney Government and the liquor interests, both of which he had attacked, put up such a fight against him that he was beaten, then he would be telling the truth, but when he states that there is an "open combination between the Whitney Government and the liquor interests," he may be stating the truth, but his humble opinion is, and I believe it is the opinion of the general run of politicians, that the Whitney Government got out and hustled for votes, and the liquor interests got out and hustled for votes independent of each other, and did just as effective work against Mr. Rowell, as they could in any open or closed combination.

Mr. Rowell, having attacked two forces and having found that he could not lick these two forces, tries to make out that there is an open combination between the two forces, in the hope that the rest of the province will believe that the Whitney Government is affiliated with and in combination with the liquor traffic.

The fact of the matter is that the Whitney Government has ruled the Province of Ontario as wisely and as well as it knows how and if some of its acts injure the liquor traffic, and if some of its acts are not suitable to the temperance people, it must take the consequence, but the fact that the people of the Province have supported the Whitney Government, proves that its acts, as a general thing, meet with the approval of the people.

Only a few weeks ago the Whitney Government passed and put into force a law that was a very heavy blow to the liquor traffic, when it forbade all the hotel license holders to immediately stop selling liquor over the bar by the bottle—that law cut in two the trade of some hotels—that did not look very much as if the Whitney Government was in open combination with the liquor traffic.

If any government in the Province of Ontario ever did make the liquor traffic sit up and take notice, it has been the Whitney Government, so when Mr. Rowell says that the Whitney Government and the liquor traffic are in open combination to defeat him, he is simply shooting not air for political purposes, with the hope of deceiving the people.

THE H. G. & B. HAS INVENTED A NEW PLAN (Continued from page 1)

six people who stood on the platform at Winona, they saw a freight car come from the east and buzz past them. Not a very good proof that the power was off.

As a matter of fact the power was off the east end of the line, but the cars west of Grimsby would be run from the power that was being obtained from Hamilton.

Greatly to the indignation of these passengers they had to stand, or sit or lie down, just as they pleased, in front of the Institute Hall at Winona for over an hour until the next car came along and picked them up.

The lady informed us that she is quite sure that the conductor and motorman got orders from headquarters to chuck them out of the car and go back to Hamilton, because she saw a large, smooth shaven man go and speak to the conductor and she judged by that that he was delivering a message to them, which they proceeded to carry out by putting the passengers out of the car and taking the car away.

Any of the following reasons might explain such a singular proceeding as this:

First—The management may have required an extra car at Hamilton and considered that it was only a waste of time to run the car carrying six passengers through to Beamsville, forgetting that they might dis appoint dozens of people who might be waiting for the car along the line.

Second—The passenger crew may have been in the same position as I knew a crew to be in, one time, when they were trying to run a car through the snowdrifts from Hamilton to Beamsville and they got so far behind time that they got discouraged and I suggested that they back up to Hamilton, and instead of running out as the 6.19 car in the evening, that they run out as the 9.19 car and they would be more liable to get in on time. The crew accepted the proposition and started to run the car back, but they had come so slowly and the snow had fallen so quickly behind them that they got stuck on the way back, so they were in the position of many a man who had to fight his way through or starve—the crew at Winona the other day may have thought it was hopeless to go ahead, so they would try and go back.

The third reason that this car crew may have turned back for, is that they were trying to establish a record the same as W. H. Harper did when he was racing on the road—W. H. was on a trip from Hamilton to Beamsville and he had a great many misfortunes on the way, so that he was greatly delayed, but still he kept on the job and succeeded in getting to Beamsville at last. He was due in Beamsville at 3.50 but

managed to arrive exactly at 4.50, so he stated that he was exactly on time, only one hour late—the crew at Winona may have figured that if they lost an hour at Winona with weak power they could get into Grimsby on time but just an hour late, so they decided to leave Winona and its weak power and run back to Hamilton where there were lots of passengers and lots of power and start over again.

Grassies Store News

Wheat harvest is about here and you will want binder twine this week and next, so come to J. O. Moore's General Store at Grassie and you can get any lengths per lb that you think will work best in your binder: 500, 550, 600 and 650 feet to the lb and the best make on the market (The Deering) as they would not dare to make a poor grade; they also manufacture binders, this makes their responsibility double.

The fruit season is here and probably you will want fruit jars. My stock is complete in this line. I handle only the best, the Improved Crown with the large opening and glass tops and my prices are right, ask for them.

With the fruit season comes the heavy demand for sugar. My prices are the same as last week, Best Red path Granulated, \$4.65 per 100 lbs. Ice cream every Saturday night. Come and bring your best girl for a treat to ice cream.

J. O. MOORE,
General Store,
Grassies.

HOT WEATHER MEDICINE

Nothing, we believe, was ever sold equal to Parke's Lithiated Fruit Granules, sold at 25c a bottle. Don't be deceived by imitations. Parke's is the kind that has made a reputation and nothing equals it. It cools the blood and acts on the liver and kidneys and keeps one right in hot weather. We make it.

Microbes in Your Scalp

Authorities say that a microbe causes baldness. If you are losing hair try our remedy at our risk.

Professor Unna, of Germany, and Dr. Sabouraud, the great French Dermatologist, claim that a microbe causes baldness, and their theory has been verified by eminent scientists. This microbe destroys the hair follicles, in time causing the scalp pores to close and the scalp to become shiny. Then, it is believed nothing will revive the growth. If treated before this occurs, baldness may be overcome.

We know of nothing that has given such universal satisfaction in treating the scalp and hair as Rexall "93" Hair Tonic. It has been designed after long study to overcome the cause of falling hair as discovered by Prof. Unna, Dr. Sabouraud and other scalp and hair specialists, and we believe it will do more than anything else can to remove dandruff and stop falling hair, and if any human scalp pores to close and the scalp to become shiny, it will do that, too.

We want you to make us prove it. We will pay for a month's treatment of Rexall "93" Hair Tonic used during a trial, if you will use it according to directions, and are not thoroughly satisfied. When we will do this, you surely should not hesitate to at least try it.

Start the treatment today. Your mere request will get your money back if you want it. Two sizes, 50c and \$1.00.

You can buy Rexall "93" Hair Tonic in this community only at our store:

R. J. CROSBY,
Smithville, Ontario.

THE DEATH OF MRS. NORMAN McCASKELL

The Grimsby friends and relatives of Mrs. Norman McCaskell of St. Catharines, formerly Miss Kate Snyder of Grimsby, were greatly shocked on Thursday last, to learn of her death at St. Catharines City Hospital, on the previous day.

The late Mrs. McCaskell was born in Grimsby and lived here all her life, up to the time of her marriage a few years ago, when she moved with her husband, Mr. Norman McCaskell of Beamsville, to St. Catharines.

She enjoyed good health up till a few months ago when she was affected with nervous prostration. A short time ago she was taken to the St. Catharines City Hospital and apparently made favorable progress and her friends expected her to be able to return to her home in a short time, but she took a turn for the worse early last week and in a few days passed away.

She is survived by her husband, a small family, her parents, Mr. and Mrs. J. L. Snyder, Grimsby and a number of brothers and sisters, all of whom deeply mourn her demise, just as she was entering the prime of life, her age being only thirty-one years.

The remains were brought to Grimsby for burial in the family plot in Queen's Lawn cemetery, and the funeral took place from the home of her parents on Robinson St., on Saturday afternoon, at 2 o'clock.

The service was conducted at the home and graveside by the Rev. J. H. Carle, pastor of the St. John's Presbyterian church.

THE DEATH OF MISS MARION MANSON

The many friends of Miss Marion Manson in Grimsby and Toronto were greatly shocked on Monday, July 14, to learn of that most estimable young lady's death in the Hamilton City Hospital after a brief illness of less than two months.

Miss Manson had been enjoying her usual health until about two months ago, and had spent a portion of the winter in a trip to New York, Washington and other Southern points with her cousin, Miss Nina Woolverton.

About two months ago she began to be troubled with an affection of the throat, and a short time ago went to Hamilton City Hospital for treatment. In spite of everything that medical skill could do she passed away in the early hours on Monday morning, July 14.

The news of her death came with all the greater shock to many of her friends, as few of them knew of her serious illness.

The remains were brought to the home of her parents, Mr. and Mrs. Wm. Manson, Nelles' Road, North Grimsby, on Monday evening.

The funeral is taking place this afternoon at 2:30 at the house and

at 3 o'clock at St. Andrew's Church, where service will be conducted by the Rev. J. Allan Ballard, rector.

The interment will take place in the family plot in St. Andrew's Church Cemetery.

The deceased lady will be very much missed in church and society circles in Grimsby, as she was an active member in St. Andrew's Church in all its branches and a popular young lady in society.

Her demise at the early age of twenty-nine years is greatly regretted by all who knew her. She is survived by her parents, one brother and two sisters.

Dr. de Van's Female Pills

A reliable French regulator never fails. These pills are exceedingly powerful in regulating the generative portion of the female system. Refuse all cheap imitations. Dr. de Van's are sold at 25c a box, or three for \$1.00. Mailed to any address. The Scotch Drug Co., St. Catharines, Ont.
